Paper Sizer Method (Best results when hands are warm)

- Print and cut out ring sizer. Cut small slit that is marked with an arrow.
- Place ring sizer comfortably around finger by slipping pointed end through the slit, numbers facing out.
- Secure the ring sizer by pulling the pointed end snugly around your finger like a belt, tight but can still move it around. Be sure it's not too tight or too loose
- Your approximate ring size should be the number that appears where it says "Read Size Here" ..

Floss/String Method

Measure your finger by wrapping floss around it. Find the length of the floss that makes exactly one loop around, and use the chart below for reference.

Ring Method (Tip: Close one eye for best results)

If the finger is not available for measuring (ie a surprise gift), use a ring from the individual's current jewelry collection. Place the ring on a circle within the chart below. The correct circle size should fit right against the inside edge of the ring.
